The items cited from a. to o. under paragraph 5. of the memorandum dated 25 June 1954 from the Management Staff are in the opinion of the undersigned addressed to the work being performed by an operating area and are not particularly applicable to a Staff function. Item n., namely, "Policy agreements, which resulted in management improvement", is closest to the work performed by this Staff. However, the criterion set forth is policy agreements as measured against management improvement. While this Staff has taken an active part in evolving a number of policy agreements, it is not possible to evaluate such agreements against work measurement, work load data and production standards.
